

This is a pictured guide on how to save your data

The game should auto save to your browsers local storage, this could fail do to some reasons or if you wish to open the save on a new device.

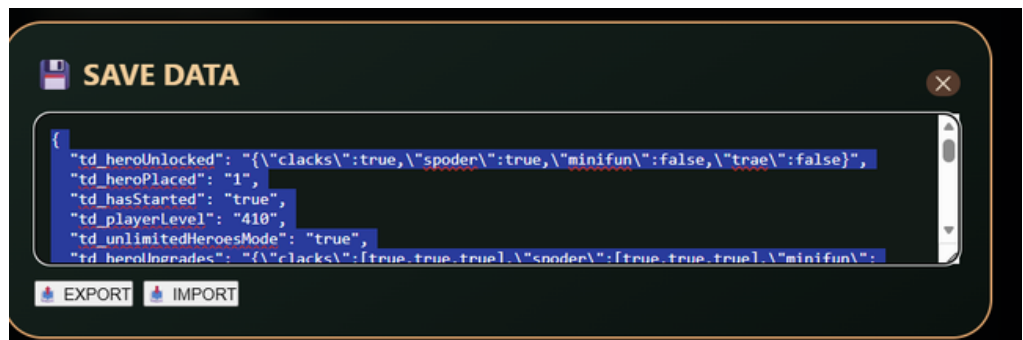

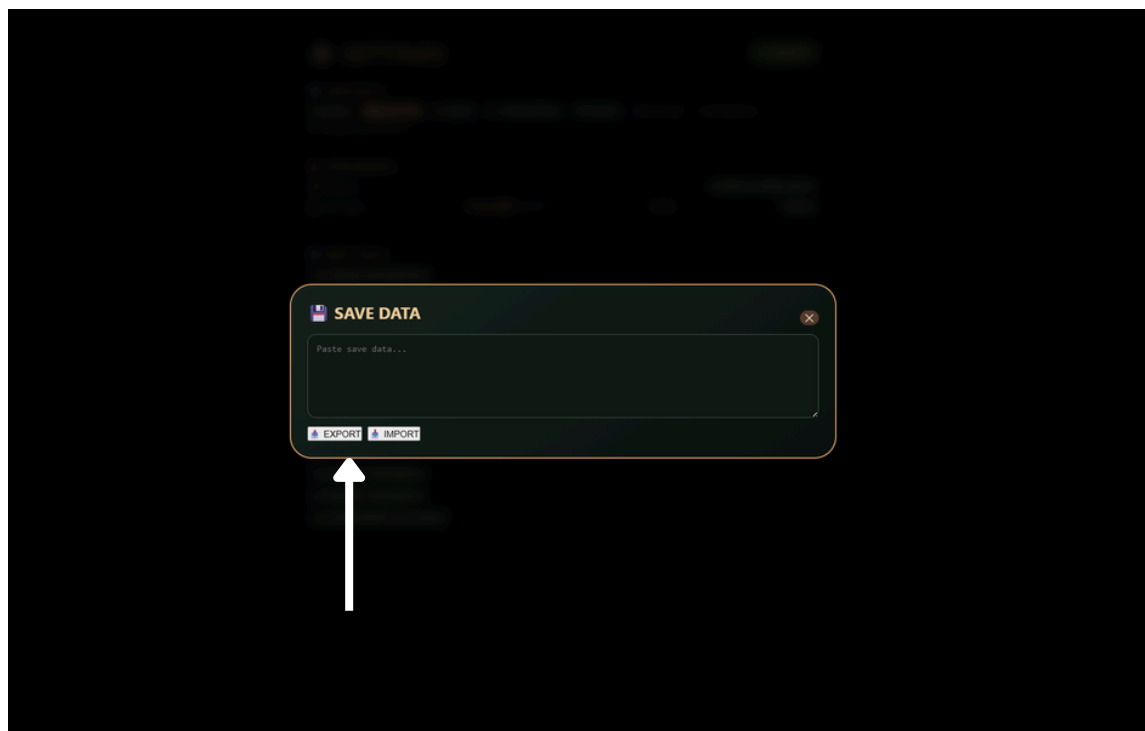

Follow these steps to externally backup your progress:

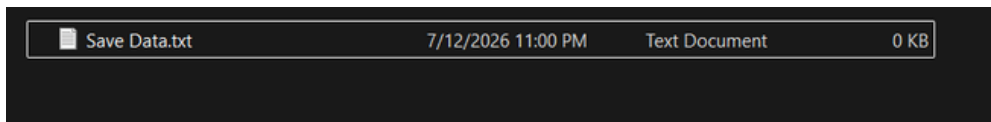

Open the settings page, find the “import progress” button and click on it

Click on the export data button, select the new text and copy it (copy it with ctrl + C or ⌘ + C)

Find the Save Data.txt file and open it

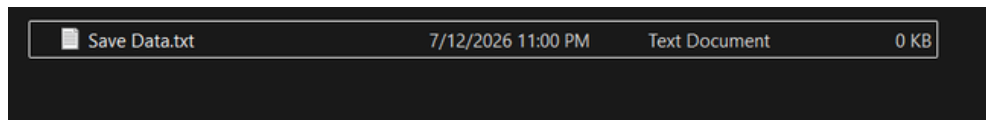

Paste in the copied text and save the file

To re-upload your save data to your browser:

Find the Save Data.txt file and open it

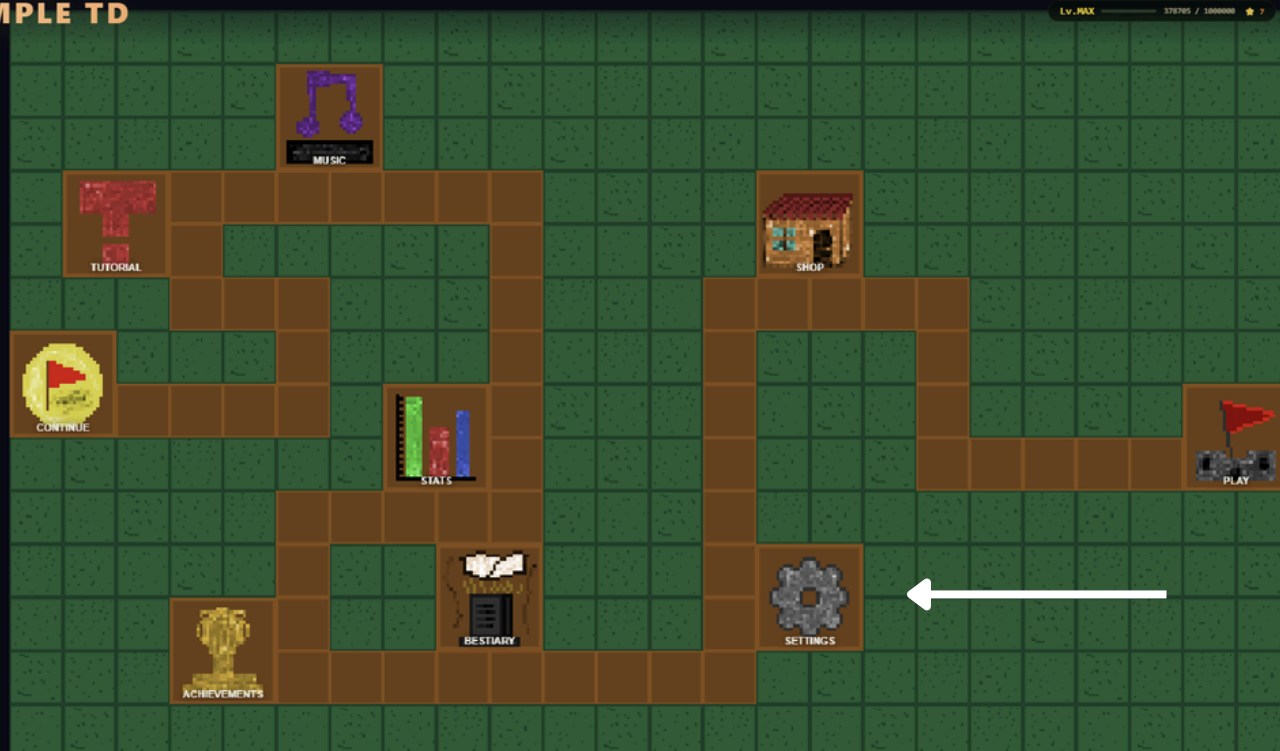

Copy the text in the file
